Simple push, grip and go
line replacement!

Made In
USA

GETS THE JOB DONE FAST!

Fits 85% of Straight Shaft Petrol Strimmers

Two line replacement head - uses line diameter up to 4mm

Simply cut a short length of line, push into head and you're ready to go

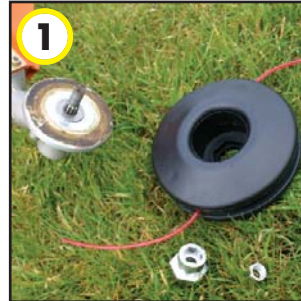

The Rebel replacement strimmer head will fit 85% of all straight shaft petrol strimmers. It is very simple to install and easy to use.

The Rebel is a heavy duty two line strimmer head. It has two steel jaws (patent pending) which ensure that any size line up to 4mm is easily installed and held securely. This provides trouble free operation; no more winding and tangling of line.

- Ideal for medium and heavy duty straight shaft machines
- Comes complete with fixings, full instructions and safety information

Easy to fit, **NO** tools needed

1 Pick collett and nut or bolt that fits your machine.

2 Place nut or bolt inside collett, and push into recess of head.

3 Locate unit onto the gearbox making sure it is centred and the right collett is selected.

4 Lock gearbox to prevent rotation with suitable pin or screwdriver.

5 Wind head onto gearbox until hand-tight. Remember it could be a left hand thread!

6 Job Done! Ready to go.

Colletts, nuts and bolts are included to adapt to most strimmers.
